Art Unit: 3634

Claims 15-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The dependency of these claims are incorrect (depend on claims without proper antecedent basis for elements claimed).

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,3,6,8,11 are rejected under 35 U.S.C. 102(b) as being anticipated by West et al. 6,079,803. Note in particular Fig. 3A and 16B. Note elongated board 105, a pair of end caps 112, support 410 (Fig. 16B). Note male and female connectors 534, 538; 536,540.

Claim 14 and (15-19 as best understood are) rejected under 35 U.S.C. 102(b) as being anticipated by Bromley et al. 6,205,722. Note boards 30, end caps 20, support for end caps 15.

Claims 4,5,7,9,10,12,13 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Similar portable steps and/or shelves are illustrated by Young 5,088,247; Womack et al. 5,570,540; Robinson et al. 6,763,912.
